

New Brow Service

BROW TINT

1 WHAT DOES EYEBROW TINTING DO?

It is a process where semi-permanent color is smoothed over your eyebrow to shape and define your natural arches.

2 HOW LONG DOES IT TAKE?

It takes about 20-25 minutes and can be done while your color is processing or as a stand alone.

3 HOW LONG DOES IT LAST?

Approximately 4-6 six weeks depending on the care It is recommended that for the first 12 hours after the service, keep eyebrows completely dry.

4 SHOULD I GET MY BROWS TINTED?

If you are looking to temporarily enhance your eyebrows, a tint is definitely worth trying as long as you go to a salon with safe formulas and licensed techs!
